

I am writing in concern over allowing LPFM to override existing translator service stations.

K-Love has been a vital network to the well being of family and friends thru communication of 24hr commercial free music.

If K-love would happen to be removed, I feel there would be a lot of people in our area that would not get the encouragement they need when they need it.

I can personally prove that the local stations in our area for K-Love have been the best service to our public listening area.

I know as a friend to the Ham Radio network in our area that LPFM can exist via other frequencies that are open. Feel the open slots first!
